

Dear Colleagues,

Please kindly see the link below which is an advertisement for two fully funded 3 year Clinical PhD Fellowships at Imperial College/Hammersmith Hospital.

From the 4 advertised projects, 2 will be funded depending on the quality of the applicants.

One is a project with me as supervisor regarding "Evaluation and improvement of organ viability in clinical transplantation" ; it is a translational research project/ Clinical PhD Fellowship that offers a unique opportunity to an ambitious surgical trainee.

Details as to how to apply can be found through the link and the deadline for applications is the 13th of December.

Applicants are most welcome to contact me via e-mail or mobile (00-44-7947316904) if they have any questions.

I am truly grateful for your kind consideration and support.

With kind regards,

Professor Vassilios Papalois
